Center - definition of center by The Free Dictionary cen·ter (sĕn·tĕr) n. 1. A point or place that is equally distant from the sides or outer boundaries of something; the middle: the center of a stage. 2. a. A. Centre - definition of centre by The Free Dictionary nerve center, nerve centre - a center that provides information and control; "the nerve center of the diamond industry is in Amsterdam" capital - a center that is associated more than any other with some activity or product; "the crime capital of Italy"; "the drug capital of Columbia" 5. Centre of the Cell - Official Site Centre of the Cell is the first science education centre in the world to be located within working biomedical research laboratories.

Galactic Center - Wikipedia Galactic Center. The Galactic Center is the rotational center of the Milky Way. The estimates for its location range from 24–28.4 kilolight-years (7.4–8.7 kiloparsecs) from Earth in the direction of the constellations Sagittarius, Ophiuchus, and Scorpius where the Milky Way appears brightest. Center | Definition of Center by Merriam-Webster Center definition is - the point around which a circle or sphere is described; broadly : a point that is related to a geometrical figure in such a way that for any point on the figure there is another point on the figure such that a straight line joining the two points is bisected by the original point - called also center of symmetry. The Center - ARK Expansion Map on Steam The Center is a free add-on for ARK: Survival Evolved that includes a massive new map for survivors to explore, nearly double the size of the playable geography of the standard ARK Island landscape making it about 70 sq. kilometers. The Center complements the current ARK biomes with a rich, hand-drawn Tolkien-esque aesthetic.

What is center of mass? (article) | Khan Academy The center of mass is a position defined relative to an object or system of objects. It is the average position of all the parts of the system, weighted according to their masses. For simple rigid objects with uniform density, the center of mass is located at the centroid. Center of mass - Wikipedia The center of mass is the unique point at the center of a distribution of mass in space that has the property that the weighted position vectors relative to this point sum to zero. In analogy to statistics, the center of mass is the mean location of a distribution of mass in space.
